Session-17 Command to open new tab and window

Wednesday, September 7, 2022   6:58 PM

Command To Open New Tab Or Window

In **Selenium version 4**, you can open new window & tab using "**newWindow**" command.

Example:

WebDriver driver = new ChromeDriver();

//Open New Window

driver.switchTo().**newWindow**(WindowType.**WINDOW**);

//Open New Tab

driver.switchTo().**newWindow**(WindowType.**TAB**);
